**International Conference on  
Male Genitourinary Pathology**

## PROGRAMME LIST

*This conference highlights the less discussed, but commonly encountered lesions which forms the major bulk of pathology work in our day to day practice. We aspire to discuss the various lesions of male genitourinary system comprising of kidney, urinary bladder, prostate and testis. This conference aims to update the delegates with the recent advances & boost their knowledge in this field.*

*The International conference is designed to bring in Internationally renowned experts to provide knowledge about the pursuance of genitourinary pathology.*
